Allowable Subject Matter

2. Claims 1-8 and 18-20 are allowed.

3. The following is an examiner's statement of reasons for allowance: regarding claims 1 and 18, the reason for the allowance of the claims is due to the amending the claims to include, in combination with other limitations, that "to induce current flow through the semiconductor structure so that ohmic collisions occur between high energy electrons and the lattice structure of the semiconductor wafer for rapidly heating from within the lattice structure of the semiconductor wafer. Since claims 2-8 depend from claim 1 and claims 19-20 depend from claim 18, they have allowable subject matter.
